## Quicksilver Anti-Corrosion Oil and Grease

At this time, we have available the newest marine lubricants for external metal surfaces of MerCruiser Stern Drives and Mercury Outboards.

The new lubricants are Quicksilver Anti-Corrosion Oil (C-92-39928A1) in 8 U.S. fluid ounce cans (.237 liter) and Quicksilver Anti-Corrosion Grease (C-92-45134A1) in 8 U.S. fluid ounce tubes. Quicksilver Anti-Corrosion Oil and Grease are specially processed to provide a good lubricating coating for all external moving surfaces, such as propeller shafts, linkages, hinge pins, yokes, swivels, etc, on outboard motors, stern drive units, 4-cycle marine engines and for other two and 4-cycle engine applications.

Both are non-conductors on electrical connections and are suitable for high temperature and high pressure applications. The lubricant does not deteriorate, dry out or harden under adverse conditions. It is easy to apply:

- Non-electrolytic -- reduces galvanic action, thus retarding metal electrolysis and pitting
- Insoluble in fresh or salt water -- resists water and salt action and will not wash off or dissolve in spray
- Non-corrosive and inert -- no reaction from any metal
- Retains full qualities thru all normal conditions of heat and exposure -- does not settle or change texture
- Use Anti-Corrosion Oil for hard-to-reach and hard-to-lubricate areas

Recommended for customer maintenance. Uses, below, show recommended oil or grease:

	Mercury Outboard Motors	MerCruiser I Drive Unit	MerCruiser II Drive Unit	MerCruiser 4-Cycle Engines
1. Gear Hsg. Cover & Water Pump Cover Retainer Threads & Anti-Galling Washer	Grease	Grease	Grease	
2. Propeller Shaft Spline	Grease	Grease	Grease	
3. Shift Shaft Splines	Grease	Grease		
4. Shift Shaft Coupler Splines	Grease	Grease		
5. Water Pump Cartridge between Insert & Housing	Grease	Grease		
6. Manifold Screw Threads	Oil			Oil
7. Head Bolt Threads	Oil			Oil
8. Engine Water Pump Seal to Casting	Grease			Grease
9. Thumb Screw Threads	Oil			
10. Tilt Tube to Swivel Bracket	Grease			
11. Reverse Lock Cam Surfaces	Oil			
12. Throttle Control Shaft Square	Oil			
13. Tiller Control Shaft Flexible Bushing OD to Steering Bracket and Screw	Oil			
14. Throttle, Choke and Shift Linkage and Swivels	Oil			Oil
15. Reverse Lock Pivot Shaft	Oil			
16. Hinge Tilt Pins	Grease	Grease	Grease	
17. Swivel Pins	Grease	Grease	Grease	
18. Exterior Nut, Bolt & Screw Threads	Oil	Oil	Oil	Oil
19. Reverse Lock Mechanism	Oil	Oil	Oil	

DO NOT USE ON BALL, ROLLER OR NEEDLE BEARINGS. For bearing lubrication, use MULTIPURPOSE Quicksilver Lubricant (C-92-35226).

Order your supply of new Quicksilver Anti-Corrosion Oil and Grease today!

C-92-39928A1 Anti-Corrosion Oil, Minimum Order 12 Cans \$1.35 Per Can U.S. List

C-92-45134A1 Anti-Corrosion Grease, Minimum Order 12 Tubes 1.75 Per Tube U.S. List
