## Quicksilver Propeller Warranty

Beaver Dam, Wisc.  
U.S.A.

### WARRANTY - QUICKSILVER PROPELLERS - WARRANTY

**DON'T** - Don't jeopardize your customer warranty by installing propellers which are not approved for MerCruisers and Mercury Outboards!

\* \* \* \* \*

MerCruiser Stern Drive and Mercury Outboard warranty policy states:

*"This warranty shall not apply to any products which have been . . . (3) operated otherwise than with accessories or a propeller manufactured by us and recommended by us for use on the product, or to a propeller of other manufacture unless certified in writing by our Engineering Department as having design characteristics suitable for use on the product . . ."*

Warranty is void if diffuser ring is removed from propeller or if otherwise altered.

There have been INSTANCES where propellers of "other" manufacturer have been used and have CAUSED DAMAGE to the engine on which it was installed or has caused POOR PERFORMANCE!

Don't risk loss of WARRANTY PROTECTION because of claims made by "other" propeller sources. Here are the important, principal reasons why you should stock and sell ONLY Quicksilver Propellers:

- Quality Controlled
  - Engineered, designed, developed and tested by Kiekhaefer engineers specifically for MerCruisers and Mercury Outboards
  - Manufactured 100% within Kiekhaefer Corporation plants
  - Continuous testing at Lake "X" assures constant quality
- Materials
  - Manufactured from high strength alloys that permit using thin blade sections without sacrificing strength
  - Proper blade area (pitch & diameter) holds engine RPM's within recommended operating range
- Flo-Torque Safety Clutch
  - Protects drive train against damage from underwater obstruction
- Jet-Prop Exhaust
  - Exhaust gases are fired into "vacuum pocket" of slip stream
  - Promotes more efficient engine operation
  - Reduces drag . . . induces less resistance . . . silences
  - Adds more miles per hour . . . more miles per gallon
