SITUATION

Mercury MerCruiser is recommending and encouraging the use of new style current production Bravo Plus sterndrives whenever possible. Non-current style Bravo sterndrives will no longer be available as complete units when existing inventories are exhausted. Check for availability of non-current style Bravo sterndrives.

New style Bravo

CORRECTION

There are two options available:

1. Order a new style Bravo Plus complete sterndrive to replace the non-current sterndrive (desirable for single engine applications).

- Order a complete drive shaft housing assembly, complete gear housing assembly, decal set and attaching hardware if needed. These can be assembled together to create a complete non-current style Bravo sterndrive (appropriate when replacing one sterndrive unit on a multiple engine boat).

REPLACEMENT PART NUMBERS REQUIRED WHEN ORDERING ORIGINAL STYLE REPLACEMENT MAJOR ASSEMBLIES OR REPLACEMENT NEW STYLE BRAVO PLUS STERNDRIVE

The following table has been prepared to assist in the selection of the correct part numbers needed to replace a non-current Bravo sterndrive with either option.

If replacing a complete upper or lower only, refer to Service Bulletin 1991-20 to verify compatibility of driveshaft housing and gear case housings.

Determine the part number for the original replacement Bravo sterndrive. Consult the table to determine the correct part numbers for Option 1 or Option 2 above.

Refer to the notes list after the table for additional information.
