

Internal Exhaust Shutter and External Exhaust Flapper Use

MODELS AFFECTED

All MerCruiser Hi-Performance engines.

RECOMMENDATION

MerCruiser Hi-Performance highly recommends the use of **both** internal exhaust shutters and external exhaust flappers with all Hi-Performance products. Without the use of both internal exhaust shutters and external flappers, water reversion may occur.

Due to the variety of exhaust systems and boat applications, Mercury Marine cannot make specific, detailed recommendations regarding each application. It is the responsibility of the engine installer to test for water reversion into the engine.

WARRANTY

The MerCruiser Hi-Performance Limited Warranty **does not** cover engine damage claims due to water ingestion or reversion.
