

WATER TUBE DESIGN CHANGE 6-15 H.P.

**DESIGN II****DESIGN I**

CHANGE

The way in which the upper water tube attaches to the adaptor plate has been improved. These improvements required machining changes to the adaptor plate that do not allow the previous water tube components (Design I) to be compatible.

To replace your adaptor plate, you must order an adaptor plate (listed below) **AND** the appropriate DESIGN II water tube

41344--9 Adaptor Plate (No Tube)
6/8 /XR10/Magnum 10

41344A5 Adaptor Plate (1" I.D Tube)
9.9

41344A6 Adaptor Plate (1-1/8" I.D. Tube)
15 H.P./SeaPro 10/Marathon 10

Design II Water Tube

32-826835A1 (Short)

32-826836A1 (Long)

NOTE: Discard the old water tube mounting hardware.
