## Crankcase Breather Kit

### Models

Hino Diesels: W04C-TA (150 HP) Serial Number 0F349123 And Below

### Kit Usage

Late model production W04C-TA (150 HP) Hino engines come equipped with a crankcase breather precipitator that separates oil from the gases emitted from the crankcase while the engine is operating. This helps reduce the possibility of an oil-film buildup on the engine and in the engine compartment. This kit can be purchased to fit older model W04C-TA (150 HP) Hino engines serial numbers listed above.

### Kit Part Number

806465A 4 (Crankcase Breather Kit)
